Beginning the Vegetable Garden

In beginning a vegetable garden one should ensure it against its natural enemies chief of which are cows, pigs, chickens and wind, by the erection, at the start, of a wire fence tight enough to keep out chickens and pigs, and high and strong enuf to keep out stock. Nothing short of a hedge, however, can counteract the effects of wind.

Heavy manuring every year keeps up the condition of the soil botb in its water-retaining capacity and its fertility.

A list of vegetables which have done well can be found in the annual reports of the Experimental Farms. Seeds may be obtained at all reliable stores.

A hot-bed is necessary for starting celery, cauliflower, and tomatoes; but roots, cabbage, onions and peas are more satisfactory if sown in the open as early as possible. Beans, corn, cucumbers and pumpkins do better when sown in the open late in May. These later sown plants do not stand transplanting well, and if sown early in the open are likely to succumb to frost.

OWNED BY FARMERS

Thirty-five thousand farmers in Western Canada own United Grain Growers Ltd.

Every cent of earnings of this organization belongs to farmers and is used for their benefit.

Deliver your Grain to the U. G. G. Elevator at Spruce Grove.

LOCAL NEWS.

MOTHER'S DAY — Sunday next, May 8th, is the day dedicated to mothers.

Miss Irene Bileau is in an Edmonton hospital at present, recovering from a major operation.

Mr and Mrs Ernest Breitkreutz and family of six left Thursday for their new nome at Wembley.

Mr George F Harris, the well-known insurance agent, paid Stony a visit yesterday.

Paul Meredith, the well-known sport, has returned to Stony after a year's visit in the Toronto district.

Mr Ph Trapp, Stony Plain's baker, made a business trip to Edson last week.

Mr J J Nolan, of the Postal Superintendent's Dept., Edmonton, has been in charge, this week, of the local Post-office.

Mr George Graden, High River, is paying Stony a visit this week.

Messrs F Stekhl and A Bulwar, who had resided in Stony for a year, left here early last month to engage in the restaurant business in Edmonton. They have returned here. Franz says: "Mebbe not enuf the gelt have; mebbe not enuf the English speak."

Thursday last was another record day for hogs at the local stockyards, some 450 coming in on that day. Farmers are getting their hogs out of the way previous to starting work in the fields.

Young Chris. Hennig, till recently in the employ of the Armbruster Lumber Co., has resumed his studies at Alberta College.

Owing to weather conditions on Sunday last, the services which were to have been held in Stony under the auspices of the Glory Hills Baptist Church had to be postponed.

The W. I. Girls' Club held its regular meeting on Friday evening last, at the home of Mrs Michael. Miss Esther Wolfe was in the chair. Plans for spending the mid-summer vacation at Jasper Park were up for discussion, as also was the dance to be given on the 24th inst. A very interesting feature of the meeting was the spelling match, in which all present showed remarkable skill.

Visitors to the City will note that the midnight train now leaves Edmonton half-an-hour earlier than formerly. The Vancouver train going east leaves Stony half-an-nour later on every morning, 5 43. The Prince Rupert tri-weekly train goes to Edmonton NOW at at 6.55 in the morning. Another change will take place in the running of the Prince Rupert trains on Monday May 23, when it is expected the daily service will be resumed, as was in force last summer.

One of Canada's Assets

Every citizen is, or should be, interested in all things pertaining to the development and prosperity of Canada, whether he views it from a broad patriotic and national standpoint or the more selfish one of how his individual business and welfare is affected. Anything any citizen can do to advance national interests and progress is, therefore, to be expected of him.

It is generally recognized that it is in the interests of a country to develop its export trade to a point beyond the volume and value of its import trade; in other words, to create what is known as a favorable balance of trade. Export trade is made up of those articles produced or manufactured in Canada and sold in other countries; import trade consists of produce and goods of other countries brought into Canada and sold to its people. That is, Canada must send its money abroad to pay for imports, while on the other hand, foreign money is paid to us for goods we export. In practice, of course, exports really pay for our imports; hence the strength of developing exports in excess of imports.

There is, however, one exception to this general rule. Money itself when imported adds to the wealth of the country much the same as exports of produce and goods adds to it. And it is immaterial the form in which such money may come.

Of late years a new industry has developed on the North American continent, although it is an old industry in France, Switzerland, and some other lands. We refer to Tourist traffic, which has long been a source of great income to France and Switzerland. Tourist traffic has, with the advent of the automobile and the building of good roads, become one of the major industries of Canada, and, unlike most imports, the more tourists we can import the richer Canada is made. It follows that everything in reason should be done by Canadians to encourage an increase in such traffic.

Tourists come to Canada for a variety of reasons. They are glad to get away from the excessive heat of the south in summer; with the development of so many large cities in the United States those who can afford to do so are anxious to flee to the woods, to the lakes and river resorts; some come for the purpose of hunting and fishing; some with the idea of investigation of Canada's resources and possibilities and investment therein. All in their travels look for comfort, pleasure and beauty of surroundings.

The mountain scenery and winter sports of Switzerland are that country's drawing cards. Canada can offer just as fine mountain scenery as Switzerland, and an infinite variety of other natural beauty which the land of the Swiss lacks. Canada's national parks are without exception among the finest in the world.

But to get to the main point of this article. Tourists travelling our provincial and country highways, en route hither and thither, desire to follow the most attractive and beautiful roads. Bare, treeless levels do not attract, but winding trails and roads through little valleys and park-like country make a powerful appeal. It is in these districts, too, that a profusion of wild flowers flourish, making the whole countryside beautiful and a constant surprise and joy to the visitor.

But there wild flowers are in danger. People exclaim at the beauty of a certain patch and forthwith proceed to break off the blooms or even tear the plants up by the roots. In a few short hours they are withered and thrown away. Had they been left undisturbed they would have given pleasure to scores of passing tourists, adding to the attractiveness of the route along which they bloomed. Not only so, but they would have reappeared next year and by scattering seed far and wide would have greatly increased in number. The serious thing is that through destruction their beauty was lost, not for one season alone, but for all time, and the loveliness which marked a spot this year is bereft of its charm in future years.

The moral is: Stop this thoughtless picking of our prairie and forest wild flowers. Try to realize that these wild flowers mean not only beauty to our country but that they attract visitors and have an effect in adding to the material wealth and prosperity of the Canadian people.

To the troubadour of old, we are indebted for most of our knowledge of the customs and thought of Medieval Europe. His songs, 2,500 of them, have been preserved. They deal with drama, romance and fable.

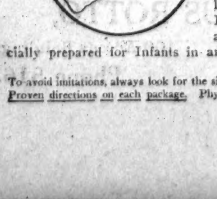
When the sun shines lay aside a little of your enthusiasm for a rainy day.

Teacher: "Surely you know what the word 'mirror' means, Tommy. After you've washed, what do you look at to see if your face is clean?"

Tommy: "The towel!"

Diamond cutters who come to London to buy gems remain in semi-darkness until the time comes for examining the stones.

Children Cry for



Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of Chas. H. Fletcher. Proven directions on each package. Physicians everywhere recommend it.

Destroy Machine-Carved Glass

Craftsmen Fear Machinery Will Ruin Hand Cutting Trade

Bohemia's famous glass-cutting industry is greatly agitated over the adoption of modern machinery to replace the proces of cutting by hand, which has been the source of livelihood of thousands of families.

Fearing ultimate destruction of their handicrafts, 1,000 trade glass cutters, representing an ancient guild of craftsmen, invaded a half dozen factories and summarily demolished large stocks of machine carved glassware. Intervention by the police failed to pacify the rioters and the disturbances are spreading through the glassware belt.

Production of a carload of machine-cut glassware requires less labor than a single hand cut vase, the revolting glass-cutters declare. They claim the foreign markets still demand hand-cut wares and announce their determination to halt further invasion by technical appliances calculated to destroy their profession.

Elevator Contsruction.

Grain elevator construction in Western Canada this year will be on an unprecedented scale, no fewer than 350 elevators being already projected.

Painful Sprains, Bruises, Restored By Nerviline

There is soothing power in Nerviline that has made it famous for nearly fifty years past. It sinks in deeply, it penetrates quickly. It takes away the pain from a sprain and brings grateful relief to bruised, aching muscles. If your joints are stiff and you are suffering from Rheumatism or Lumbago; if Neuralgia bothers you now and again, use trusty old "Nerviline." It works wonders, whether the pain is internal or external. Get a large 35-cent bottle from your dealer today.

Making Animals Feel at Home

Lions and tigers in Bronx Zoo will have an opportunity to become acquainted with scenes of their childhood. Painted backgrounds purporting to picture the plains of Africa and the jungles of India, are being installed in the outdoor cages. Similar backgrounds were installed in the reptile house several years ago.

MAKE CARE OF BABIES EASIER

Stomach disturbances and constipation are responsible for much of the peevishness of babies and young children. When the baby is cross or irritable the mother should not resort to so-called soothing mixtures to correct the trouble, for in the majority of cases these mixtures simply drug the child into an unnatural sleep. What is needed is a gentle laxative that will sweeten the stomach and regulate the bowels. Such a remedy is found in Baby's Own Tablets. They are easy to take and guaranteed to be entirely free from opiates and narcotics. Concerning them, Mrs. Jos. Tousaignant, Ste. Sophie, Que., writes:—"I would like all mothers to know that I feel there is no other medicine to equal Baby's Own Tablets. I always keep a box in the house and their prompt use never fails to restore my little ones to health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"Moto-Balloon" New Invention

Observation Post Can Be Quickly Transformed Into Semi-Dirigible

A "moto-balloon," capable of remaining immobile in the air as an observation post, though unattached, or of being transformed into a semi-dirigible within a half hour was launched at Milan, Italy, recently. It was christened the "A-P," after its inventor, Colonel Ayorio, and his assistant, Passone.

It consists of a special type of captive balloon with the body replaced by a metallic tubular apparatus equipped with a 400-horse power motor and containing room for a crew of several men. It is capable of flying four hours at a speed between 30 and 40 miles an hour at an altitude of 6,500 feet.

The largest refrigerating plant in the world recently was opened in Buenos Aires. It is capable of handling daily 5,000 sheep and 10,000 cattle.

Treat corns with Minard's Liniment.

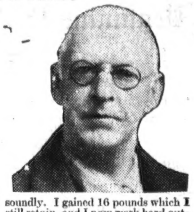
Canadian Farmer Tells His Experience

"Les" Booth, widely known Ontario farmer, and a sick man for 20 years, suffered daily, only half alive. Now strong, robust, vigorous, credits new found health to Tanlac



Though popularly known as "Les," Mr. Booth's correct first name is George. His home is at 271 Perth St., Brockville. For the past three years he has enjoyed vigorous health but what he endured before then is best told in his own words. "For twenty years my arms, shoulders, back and hips, ached with rheumatism," said Mr. Booth. "Often I had to quit work entirely and I remember one bad spell that kept me in bed for six months.

"My case got to be so chronic that the help ran the farm. I was practically helpless. Even my wrists and hands would swell up so that I couldn't write my name. I dreaded bedtime, for I got no rest, but lay there in agony, waiting for morning. Nervous spells would seize me and I would tremble all over like a leaf. I couldn't get any benefit from my food and had to force myself to eat. My weight was far below normal.

"Three years ago I decided to give Tanlac a good trial, for nothing else had helped me. I could scarcely believe such results were possible as those Tanlac soon showed. The aching stopped, my appetite came back and I could eat heartily. My nights became more restful, too, and I slept soundly. I gained 16 pounds which I still retain, and I now work hard outdoors from 8 to 10 hours a day. *I never have an ache. It's hardly believeable!* If folks want to know what Tanlac can do, tell them to write to Les Booth, or to come and see me. I'll tell 'em."

If your health is broken from overwork or neglect, profit from Mr. Booth's experience. Try Tanlac, nature's own body builder, made from roots, herbs and barks. Your druggist has it. Over 52 million bottles sold.

Farmers Appreciated Better Seed Cars

Attendance at 28 Manitoba Points Reached Total of 4,418

Final report on the work of the Manitoba Better Seed and Poultry Cars which were operated by the Manitoba Provincial Extension Department of Agriculture in conjunctios with the Canadian National Railways, during February and March, shows that a total of 4,418 people visited the cars and attended the lectures at the 28 points visited.

These figures indicate an average attendance of 157 persons at each point, a satisfactory result in view of the fact that the Better Seed Cars were being operated for the first time and of the weather conditions which prevailed at some points. Of the total attendance 1,057 were children of Grade 8 and over.

In addition to lectures and a display of noxious weeds common to the districts in which the cars operated, practical demonstrations in the cleaning of seed were given, and farmers were provided with lists showing the screens which should be used to produce the best results. Live poultry were used in the poultry car which also had accommodation for lecturing purposes.

The staff consisted of George Black; R. Whiteman; F. B. Hutt, and at various times visits were paid by N. C. MacKay and H. E. Wood of the Extension Service Department and by officers of the Agricultural Department of the Canadian National Railways.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Remover is within reach of all.

The man who knows nothing and wants to find out everything is almost as big a bore as the man who thinks he knows everything and insists upon telling it.

Canadian Alfalfa Seed

The superior quality of northern grown seed is nowhere more strikingly shown than in the success obtained with Canadian alfalfa seed. For a long time it was found difficult to grow alfalfa successfully in many parts of Canada, but the development of an ample supply of hardy strains of seed has, to a certain extent, solved the problem of winter-killing and the Dominion's alfalfa crop increased from 228,000 acres in 1920 to 858,000 acres in 1926.

Husband And Wife Are Both Benefitted

Mr. F. Spilay Speaks Highly of Dodd's Kidney Pills

Saskatchewan Man Who Suffered From Kidney Trouble Tells of the Relief He Sought and Found.

Springside, Sask. (Special)—"Both my wife and myself have suffered with strained kidneys, the pain being so bad at times that it was impossible for either of us to stoop and getting up was most difficult and painful. We used Dodd's Kidney Pills and found ready relief in them for this trouble."

This statement comes from Mr. T. M. Spilay, Box 2, Springside, Sask.

Dodd's Kidney Pills are purely and simply a kidney remedy. They act directly on the kidneys, strengthening them and putting them in condition to do their full work of straining the impurities out of the blood.

Dodd's Kidney Pills have restored sound health to thousands of troubled men and women. Give them a trial at once.

The road to good health lies through the kidneys, so keep them in good condition with Dodd's Kidney Pills.

Keene, New Hampshire, claims to have the widest concrete-paved street in the world, measuring 140 feet from curb to curb.

A woman never thinks of her husband as a gambler as long as he does not lose.

BAYER

Genuine ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

New Carillon Of Bells At Ottawa Said To Be Largest Of Its Kind In The World

The carillon of 53 bells built at the bell foundry in Croydon for the Canadian Houses of Parliament at Ottawa, is the largest of its kind in the world. It is practically a sister carillon to the fine bells installed by the same firm, Gillett and Johnston, in the Park Avenue Baptist church, New York, but whereas the New York Bourdon bell weighs 9¼ tons, the Ottawa Bourdon weighs ten tons. The 53 bells extend through four and a half chromatic octaves from the Bourdon, low "E" to the 14-pound top treble, high "A."

Every bell is in tune with itself — that is, it has been tuned accurately on the five tone harmonic principle. The whole carillon has also been carefully tuned to the scale of equal temperament, so that the performer can moderate from one key to any other without offending the ear. Before Bach invented the 'scale of equal temperament' over 200 years ago, it was impossible to attain this result in ordinary music, and until the last few years this refinement was unknown to the bell world.

The carillon also has been tuned absolutely to international pitch, which is in general use for ordinary musical instruments and modern concert practice in both hemispheres.

The total weight of the bells is 53 tons and the weight of the steel framework and fitting is about 22 tons.

The inscription on the Bourdon bell is in English on one side and in French on the other; and round the top of the bell a continuous design of maple leaves has been moulded. At the special request of the Canadian Government, the wording of this inscription has not yet been divulged.

The world's record was achieved in the time taken to construct the carillon—from the date when all the details were settled all 53 bells with the necessary machinery have been finished in 18 months.

The 10-ton Bourdon bell will be the second largest individual bell in Canada and the third largest on the American continent.

An elaborate "practise clavier" is being supplied with tuned bars and resonators and having a keyboard exactly similar to that of the carillon clavier (or console) so that the carilloneur can learn fresh pieces without annoying the neighbors. A more important use of the "practise clavier" is to enable pupils to learn the rudiments of playing and acquire a certain amount of proficiency — particularly in pedal work — before playing on the tower instrument is permitted.

The clock mechanism is divided into three separate units, the "going train" driving the hands of the four 15 ft., 9 in. diameter clock faces, while the "striking train" and "quarter train" are placed 50 feet below, under the bells. The old-fashioned clock weights are dispensed with and in their place powerful electric motors lift and release the enormous clock hammers. The carillon will be shipped to Canada shortly, so as to be inaugurated on Dominion Day, July 1st. The Victory Tower is possibly the finest position in existence for the purpose of carillon music.

Sodium Sulphate

In Canada sodium sulphate, in the form of salt cake, finds its largest use in the pulp and paper industry, and is also employed in the metallurgical, glass, dye, textile, and other industries. Eighty-three occurrences of natural deposits of sodium sulphate have been located in Western Canada and an investigation of 21 of these by the Dominion Department of Mines shows the presence of over 115,000,000 tons of hydrous salts, mainly sodium sulphate.

There are about 500 lobster canneries in Canada employing nearly 7,000 people. The normal catch of lobsters amounts to about 35,000,000 pounds.

A lot more people would take a friendly interest in you if you made a noise like a roll of greenbacks.

Values of Farm Lands

Average Value for Whole of Canada is $37 Per Acre

According to a recent compilation made by the Canadian Government Bureau of Statistics the average value of the occupied farm lands of Canada as a whole, including both improved and unimproved land, as well as dwelling houses, barns, stables and other farm buildings, is returned as $37 per acre, as compared with $38 in 1925, and with $37 in each of the two previous years. By provinces the averages are as follows: Prince Edward Island, $46; Nova Scotia, $26; Manitoba, $29; Saskatchewan, $25; Alberta, $26; British Columbia, $80. The average values in 1926 of orchard and fruit lands, including buildings, etc., in the fruit-growing districts are estimated to be as follows; Nova Scotia, $129; Ontario, $124; British Columbia, $320.

The waters in the Canadian national parks in Western Canada offer splendid inducements to the angler. Five varieties of game trout have their habitat in the waters of the parks, namely, cut-throat, lake, Dolly Varden, bull, and brook.

Highway Construction

Millions Spent on Provincial Highways in Canada in 1926

During 1926 a total of $45,563,000 was spent on construction of all provincial highways in Canada, according to computations made by A. W. Campbell, Dominion highway commissioner. Of this total $29,595,000 was spent on construction and the balance, $15,978,000 on maintenance of highways already constructed. The total mileage of roads involved in this aggregate expenditure was 46,824.

Older Ontario led with a total outlay of $21,170,000, total mileage involved being 15,861. The other provinces expenditure was divided as follows — Nova Scotia, $1,900,000, mileage 13,000; Saskatchewan, $3,925,000, total mileage, 2,400; British Columbia $3,478,000, mileage 4,000; Alberta, $2,140,000, mileage, 1,928; New Brunswick, $1,450,000, mileage 1,725.

Manitoba spent $1,100,000, of which $950,000 was on construction, total mileage, 500; Prince Edward Island, $220,000, mileage, 700.

The total mileage of highways constructed in Canada in 1926 was 5,768, and the largest mileage in any province was New Brunswick, with a total of 1,004; Older Ontario, with 859; Northern Ontario, with 823 miles; Quebec, with 718; Manitoba, with 665; Alberta, with 652, of which 275 was colonization roads; Saskatchewan with 489; British Columbia, with 303; Nova Scotia, with 252, and Prince Edward Island, with 30 miles.

Many Uses of Wood

Demand for Wood Now Greater Than Any Time in World's History

In spite of the increasing use of substitutes for wood the people of the world never before used as much of that material every week as at the present time. The modern steel ocean passenger ship has much more wood in its decks and fittings than would have built an entire wooden ship of sixty or seventy years ago. It was in all seriousness and without any idea of a play on words that a noted Canadian conservationist pointed out recently that in spite of all modern inventions man is still surrounded by wood in every stage of his progress from the cradle to the grave.

Demand for Poultry

During one week in April, orders for over 75,000 white Leghorn pullets, from six weeks old up, had to be refused by breeders in Southern British Columbia on account of shortage of stock, though hatchings this season were larger than ever. Some breeders have given notice that orders for next season must be placed at once to ensure delivery.

Canada's exports of paper exceed those of any other country in the world, and in the matter of newsprint paper her exports are probably greater than those of the rest of the world combined.

Ted—"That broken-down old man wants to get married again."

Rod—"Wants to be re-paired, eh?"

Vital Importance Of Forests As A Source Of Employment Should Be Fully Recognized

Commercial Fisheries in the West

Fish to Value of $3,522,167 Caught in Lakes and Rivers of Western Canada in 1926

About 90 per cent. of the $3,522,167 worth of fish caught in 1926 in the fresh waters of the lakes of the Canadian Prairie Provinces — Manitoba, Saskatchewan and Alberta — found a ready market in New York, Chicago, Buffalo, Detroit and other American cities.

The market value of fish caught in the three Prairie Provinces shows an increase in value of $1,101,842 compared with the value in 1925. Whitefish, tullibee and pike were the principal kinds of fish exported to American markets, the first named being most in demand. Last year 111,000 pounds of royal sturgeon, from which comes the delectable and expensive caviar (the market price of which is about $1 per pound), a favorite dish with many epicureans, were caught in Manitoba.

Western Canada is chiefly famous as a great wheat producing and mixed farming country and comparatively little is known of its commercial fisheries and other natural resources. In the provinces of Manitoba, Lakes Winnipeg, Manitoba, and Winnipegosis are really fairly sized inland seas that yield the principal supplies of fish in Manitoba. In Saskatchewan the numerous lakes in the central and northern parts of the province are the sources of supply. The Alberta commercial fisheries are to be found mainly in the lakes north of Edmonton.

Ploughing Peas Under As a Green Manure

Results in a Lowered Yield of Wheat for Following Season

The ploughing under of peas as a green manure has resulted in a lowered yield of wheat the following season as compared with the bare fallow, in experiments conducted at the Brandon, Manitoba, Experimental Farm. Although the ploughing under of the peas may increase the nitrogen content of the soil, this is more than counter-balanced by the loss of moisture involved. The later the green peas are ploughed under the greater is the amount of water dissipated. The experiments were were made on a rich loamy clay soil.

Jasper National Park

Jasper national park in Alberta, with an area of 4,400 square miles, is one of the largest "playgrounds" in the world. A part of the reserve to the north of the central section is still unexplored, but the park is being rapidly opened up by the construction of trails and highways.

Visiting Minister: Ah, my unfortunate friend, this world is full of trials.

Hard Case: It ain't the trials that worries, sir; it's the verdicts.

Just now a great deal is being heard about Canada's forest resources, their conservation and their destruction. "Save the Forest" campaign was held throughout Canada during the week April 24-30, and the Federal and Provincial governments, Organized Clubs, Pulp and Paper Association, Schools, Churches, Radio Stations and Theatres are co-operating in emphasizing the necessity of preventing forest fires and conserving our Canadian forest resources.

The potential value of the forests as a very great asset is being emphatically stressed, but the value of the forests as a source of employment affects us all vitally and particularly, says the Natural Resources Intelligence Service of the Department of the Interior, Ottawa. According to the latest census of figures, there are nearly 130,000 persons employed in the wood and paper industries of Canada and 40,000 in the logging industry. In the construction industry where wood plays such an important and essential part, another 185,000 are employed. Transportation services, which owe so much to products of the forest, which constitute one of their largest and most consistent sources of revenue, afford employment to nearly one quarter million persons, and so on. In fact almost every industry, not excluding agriculture itself, directly or indirectly relies for necessary equipment and supplies on the forests.

In connection with trapping, hunting and fishing, the value of the forest is of first importance, for if the forests were destroyed, fur and game animals would rapidly become non-existent. The beauty of the forests, lakes and mountains, the abundance of game and fish, attracts many visitors and provides health and pleasure, also a large annual revenue to Canadians.

Forests grow, mature, deteriorate and decay. Once a tree has attained maturity nothing is to be gained by postponing its cutting. When cutting the mature tree, however, the protection of the small tree struggling for its existence near-by should be assured. The small trees of today are our forests of the future.

One well-known forest authority has suggested that in each district where timber rights are granted, the average annual growth per acre be ascertained and only the larger trees, to an extent not exceeding the annual growth of timber as a whole per acre, be cut. The forests would be growing in value year by year if this plan were followed.

The planting of trees and shrubs along highways and bordering fields for windbreaks will, as the practice increases, become a means of increasing the wood supply materially and, in the course of years, may build up a valuable source of timber supplies.

Date of Ploughing Summer-Fallow

Early Ploughing Appears to Give Better Results

In experiments conducted at the Brandon, Manitoba, Experimental Farm, the yield of grain following fallow has varied inversely with the lateness of ploughing the fallow. Ploughing on May 15 gave better results than ploughing on June 15, and ploughing on July 15 decreased the yield still further. Besides, the July ploughing does not control annual weeds. They grow unmolested until the time of ploughing and thus use up a great deal of valuable moisture.

Government Will Be Popular

The Government has ordered a national census on April 24, and has simultaneously published a decree providing imprisonment and fines for subjects giving false data. The only exception to the decree against falsifying is in the case of women who declare themselves younger than they actually are. No fine or imprisonment term will be levied upon them.

Sympathy is like blond hair; a lot of it is not the real thing.

Alaska is to have an official flag, designed by a 13-year-old boy, Benny Benson, Sward, who gets $2,000 for a trip to Paris.

President Coolidge has issued a proclamation asking for aid for the sufferers in the area flooded by the Mississippi river and its tributaries.

The Ottawa Citizen states that Right Hon. Mackenzie King, on a modest scale, is going into the sheep farming business He has an estate at Kingsmere, in the Gatineau.

Appointment of W. A. Hewitt, of Toronto, as manager of the Canadian winter sports team at the Olympic games next winter has been announced by the Canadian Olympic Committee. The team is to comprise figure and speed skating and skiing units.

Miller's Worm Powders do not need the after-help of castor oil or any purgative to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found palatable by all children, will end the worm trouble by making the stomach and bowels untenable to the parasites. And not only this, but the powders will be certain to exert most beneficial influences in the digestive organs.

Unfortunately a man's epitaph comes along too late in the game for him to live up to it.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

Became So Weak Could Hardly Stand

Mrs. Wm. Palmer, Tomahawk, Alta., writes:—"Last spring I had a long spell of sickness and became so weak I could hardly stand. I could not sleep at night as the least little noise would wake me up. I tried blood tonics and other nerve pills, but they did me no good, and I was getting worse.

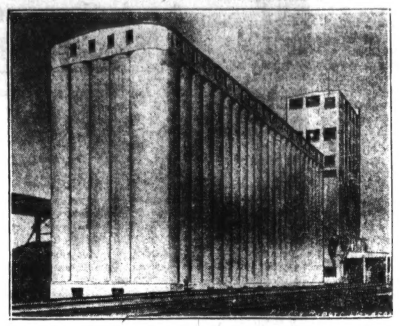
I wrote my mother about my condition, and she sent me three boxes of

MILBURN'S HEART AND NERVE PILLS

After the first box I was feeling much better, so I kept on until I had used the three boxes, and now I feel as well as ever I did when I was a young girl."

Price 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Operations of the Alberta Wheat Pool's Prince Rupert Terminal



The Alberta Wheat Pool has loaded twenty-two ships with wheat from the 1926 crop at Prince Rupert and expects to bring the total up to twenty-four before the crop movement is ended this spring.

The Alberta Pool terminal at Rupert has already handled 5,188,000 bushels and the total will reach 5,788,000 bushels within a few weeks. This is a larger total than was anticipated last fall.

The Prince Rupert house was built and is owned by the Canadian Government, has a capacity of 1,250,000 bushels and is probably the fastest handling terminal on the coast. It is under lease to the Alberta Pool for a term of two years. Joseph Bennett is superintendent of this elevator.

Through the Pool's extensive operation, the ocean freight differential has disappeared and grain is shipped to Europe from Prince Rupert at the same rate as from Vancouver.

Of the twenty-four ships already loaded or committed, six carried grain to the Orient and eighteen to Europe.

Previous to the Pool leasing the Rupert terminal, no wheat had been shipped from that port.

Smart Little Ones Go Simply Clad

Dressing the tiny Miss of two to eight is no less an art than providing lovely clothes for her mother or older sister. One of the prettiest and simplest frocks any little girl could have is pictured here, and one which busy mothers can make up in a very short time, for it just has a group of shirrings either side of the front and in the centre back. A simple chain stitch of colored silk floss is worked over each row of gathers, lending a bright touch, and holding the fullness firmly in place. Shirrings are again seen on the wrists of the full sleeves and pockets, while two-piece bloomers make this a most practical dress. No. 1434 is in sizes 2, 4, 6 and 8 years. Size 4 requires 2¾ yards 36-inch material; or 1⅝ yards 54-inch. 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

RHEUMATIC MISERY

Relief Can Only Come Through Better Blood—Liniments of No Use

In no other disease does the blood become thin so rapidly as in rheumatism. Not only does it become thin but it is loaded with impurities—rheumatic poisons. Without the proper treatment these poisons increase, the inflamed joints swell and the patient becomes a cripple. Most treatments simply aim to keep down the pain, hence with every unfavorable condition a renewed attack follows.

To cast out rheumatism the blood must be enriched, and the rheumatic poisons driven out with the natural secretions of the body. This can best be done through a course of Dr. Williams' Pink Pills, which have a specific action on the blood, giving it new richness and redness. Thousands have tried this treatment with beneficial results. That every sufferer from rheumatism who does not try Dr. Williams' Pink Pills is neglecting the most hopeful means of recovery is shown by the statement of Mr. David Carroll, Pictou, N.S., who says:—"For years I was troubled with rheumatism. The pains were not continuous, but they always returned, and kept getting worse. I tried so-called electric belts and many medicines, but did not get more than temporary relief. Only those who have suffered from this trouble will realize what I suffered at times. I had begun to despair of getting better when a friend urged me to try Dr. Williams' Pink Pills. In a short time I could feel this medicine helping me so I gladly continued taking the pills and soon found that every trace of the trouble had disappeared and there was a great improvement in my general health. It is now two years since I took Dr. Williams' Pink Pills and I have not had the least twinge of the trouble in that time. That is why I confidently recommend the pills to other sufferers."

You can get these Pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Company, Brockville, Ont.

Three Good Reasons

Auto Tourist—I clearly had the right-of-way when this man ran into me, and yet you say I was to blame. Local Cop—You certainly was. Auto—Why? Local Cop—Because his father is mayor, his brother is chief of police, and I go with his sister.

If you want to be sure of getting a lot for your money, see a real estate man. They have them for sale.

SUNDAY SCHOOL LESSON

MAY 8

PETER AND THE RISEN LORD

Golden Text: "Blessed be the God and Father of our Lord Jesus Christ, who according to His great mercy begat us again unto a living hope by the resurrection of Jesus Christ from the dead."—1 Peter 1.3.

Lesson: John 20. 1-10; 21. 1-23.

Explanations and Comments

I. Mary Magdalene's Discovery at the Tomb of Christ, John 20. 1, 2.—A stone had been placed over the entrance of the tomb in which the body of the crucified Saviour had been laid (Mark 15. 46), and the stone had been sealed (Matthew 27. 66). The stone was probably a cylindrical one which could be rolled aside in a groove at the base of the opening of the tomb. Early on Sunday morning Mary Magdalene came to the tomb with the others, as the "we" in the next verse indicates. She found the stone removed. At once she hastened to tell Peter and John (John always refers to himself in his Gospel as "the disciple whom Jesus loved"). "They have taken away the Lord out of the tomb, and we know not where they have laid him," she cried.

"The Catholic, who cannot find the grace in these Easter days to have the stone rolled back, whether it be pride, greed, or pleasure, that keeps him tombed in his own selfishness, is certainly wasting the graces of Easter." — Catholic Standard and Times.

II. Peter and John at the Tomb of Christ, John 20.2-10.—The two disciples ran to the tomb. John reached there first and, looking in reverently and wonderingly where the Saviour's body had rested, he beheld only the linen cloths in which it had been wrapped. Then impetuous Peter rushed into the tomb and saw a wonderful thing; the linen cloths which had enveloped Christ's body were rolled up and the napkin, which had been about his head, was in another place. Leisurely and orderly had been Christ's departure. Had others carried off his body, the grave clothes would not have been left. Then John also entered the tomb, and the sight sufficed him; he believed that Christ was risen. "A heart full of love for Christ requires but little proof to find in him a living Lord. The apostle of love was the first person to believe in the risen Christ, and he it was who afterwards recorded that beatitude which fell from the lips of his living Lord, a beatitude the blessedness of which he was the first to know and in which we all now share, 'Blessed are they that have not seen, and yet have believed.'"—C. R. Erdman.

For all pain—Minard's Liniment.

Make Mendicancy An Art

Beggars In France All Carry Manual of Instructions

Mendicancy is an art in France, and Gallic beggars have a "Manual for the Use of Beggars" to instruct them in the art.

The book, which includes a "sucker list" of good prospects, emerges from the pocket of a beggar when a Paris judge admired his knowledge of humanity.

"Why, it's an art," exclaimed the beggar, drawing forth the textbook in explanation.

Most of the chapters are devoted to technical instruction, such as how to operate at baptisms, marriages, funerals and the methods of attracting sympathetic attention.

There is instruction in how to seem blind, simulation of certain ailments, faking of suicide attempts and the concealment of legs or arms for displacement by false ones.

A scientific expedition in South America has discovered a tunnel three miles long and several inches in diameter, made and regularly used by ants.

An Oil that is Prized Everywhere.—Dr. Thomas' Eclectric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

Ike—"Are you working, Joe?"

Mike—"Sure, I got a dandy job fixin' de trolley tracks. I hab to quit every minnit or so to let the cars pass."

Little Boy: "Mother, who put the statue under the kitchen sink?"

Mother: "Hush, sonny, be quiet. That's the plumber."

China, the home of the silkworm, is buying quantities of silk in the finished garment from America and France.

Greater Stamina and Longer Mileage

added safety and comfort—that's what Gum-Dipping, the extra process, gives to Firestone tires.

Gum-Dipping goes to the very heart of every cord, thoroughly saturating and impregnating every fiber with rubber—delivering greater economy, safety and comfort in the day-in and day-out service of the largest truck, bus and taxicab fleets—in the battle of tires on race tracks—and on cars of hundreds of thousands of motorists throughout the country.

Your tire costs will be materially lowered by having the nearest Firestone Dealer equip your car with these wonderful tires. See him now.

Firestone Builds the Only Gum-Dipped Tires

Record Building Activity

Indications are that building in Canada will be more active than it has been for several years. For the first three months of the year there is proposed construction amounting to $208,132,000, which is actually 41 per cent. higher than the total in sight at the corresponding period of 1926. The lead is taken by residential contracts, which is a natural result of the upward trend of business that has been noted for many months past.

A Real Asthma Relief. Dr. J. D. Kellogg's Asthma Remedy has never been advertised by extravagant statements. Its claims are conservative indeed, when judged by the benefits which it performs. Expect real relief and permanent benefits when you buy this remedy and you will not have cause for disappointment. It gives permanent relief in many cases where other so called remedies have utterly failed.

If success doesn't turn the average man's head it's because he has a stiff neck.

PAY TRIBUTE TO BRITAIN FOR AID GIVEN IN CHINA

Vancouver. — Mail advices from Shanghai give details of the testimonials sent the British Government by the non-British residents of the big Oriental city as a tribute to the prompt action of Britain in sending troops to protect the settlement.

The text of the vote of thanks was as follows:

"We, the undersigned, non-British residents of Shanghai, wish to express our appreciation to His British Majesty's Government for the prompt and adequate measures taken for the defense of Shanghai. Though we realize that, quite naturally, the despatch of troops was primarily for the defense of its own nationals, as foreigners residing here, of whatever nationality, have benefitted equally. If the British troops had not arrived when they did, we should now all be in an extremely uncomfortable and dangerous position, if we had not actually been forced to leave the place. It is certain that the women and children would have had to be evacuated, and the settlement would probably have shared the fate of Hankow and Kiukiang.

"The opinion is heard freely expressed on all sides that Great Britain, by the courageous stand she has taken in this crisis, has again given the lead to the whole civilized world."

"Amplifying the above were the following expressions:

"The events of the last few days have brought home forcibly to all of us the immense value of the timely and adequate steps taken by the British Government for the protection of Shanghai. The mere fact of the arrival of the British forces has prevented an earlier outbreak of terrorism in the settlement itself.

"It has, for some time, been clear to most of us that but for the British troops we would not have been here today.

"Of whatever nationality or creed, we must admit that when others stood aloof, the British Government acted, in spite of all obstacles. We all know of the political struggles going on in nearly every country in the world today. We know that the British Government is daily harassed and criticized by forces at work to undermine and to destroy. These forces are at work everywhere, here and in our own respective countries.

"It is seldom that most of us out here find an opportunity of doing a good deed, but here is an excellent chance of adding our mite to a big cause; to silence, if but for a brief spell, the stupid braying of ignorance, cunningly employed by dangerous forces."

It is interesting to note that there were 2,350 signatures of members of 32 different nationalities.

Have Not Prepared Draft

Geneva. — The preparatory disarmament commission adjourned without fulfilling its allotted task of preparing a draft treaty for the reduction of armaments. President Loudon believes a successful disarmament conference is assured.

Cable Congratulations to Prince

New York.—The Prince of Wales has been congratulated by cable by the American Society for the Prevention of Cruelty to Animals. The Prince refused to attend a bull fight which had been arranged in his honor.

Good Reception in North

Bernard Harbor, N.W.T., (via Aklavik Radio).—Fans here have been blessed with phenomenal reception during the winter and still are able to get American as well as European stations during the daylight loud speaker volume.

Mint at Canton Burned

London.—An exchange telegraphic despatch from Hong Kong reported receipt of a message saying the Chinese Government (Cantonese) mint at Canton was ablaze. Arson was suspected, the message added, and Tai Chuk Man, described as leader of the reds, had been arrested.

W. N. U. 1679

May Extend Empire Settlement Agreement

New Features Likely to be Included in Proposed Extension

Ottawa. — An extension of the 3,000 family Empire settlement agreement is awaiting the consideration of Hon. Robert Forke, Minister of Immigration, in London, and it is possible that some new features will be included in the new agreement.

There are several new proposals respecting boy immigration which will be taken up with the British Government this summer. Mr. Forke will visit all the immigration Department agencies in Great Britain and will also visit the Scandinavian countries to confer with authorities there.

Prepare for Advance On Canton

Four Armies of Hankow Nationalists Ready for Attack Says Report

Canton, China.—The Hankow section of the Nationalists (Cantonese) is reported to be preparing for a general advance upon Canton with four armies.

The armies, it is said, will move through Honan province, attacking Canton by way of the east and north rivers and utilizing the Red forces distributed in the districts en route.

Canton, important source of revenue and site of a large arsenal recently declared its independence of both the Hankow and Nanking Nationalist regimes. Later, however, the moderates rounded up the Reds after which the city nominally adhered to the Nanking section.

May Propose Abolition Of Large Submarines

Reported Intention of Britain at Three Power Naval Conference

Geneva.—With the preparatory disarmament commission disbanded, interest now centres on the three power naval conference between Great Britain, the United States and Japan, which is expected to open here about June 30, especially as reports have already circulated that Great Britain may propose abolition of large seagoing submarines.

In this connection, experts have pointed out the likelihood of the United States insisting on the use of these craft to maintain communications with distant possessions.

Statue of Laurier

Memorial of Parliament to be Erected at Ottawa

Ottawa.—A statue of Sir Wilfrid Laurier, the memorial authorized by Parliament to express the respect and veneration of the Canadian people for this statesman, is to be erected before July 1, near the southeast corner of the east block, facing Connaught Place from the sloping lawn of the terraced Parliament Hill.

The location is close to Wellington Street and the Chateau Laurier, and today four stakes mark the site of the concrete base which will be constructed immediately to carry the statue.

The statue itself is the work of Emilie Brunet, of Montreal.

Not Seeking Prize

Paris. — Major Francois Coli, French aviator, said that he and his partner, Captain Nungesser, with whom he is planning a trans-Atlantic flight, are not competing for the $25,000 prize offered by Raymond Orteig for the first flight between New York and Paris. "Our only engagement is to try for a straight line nonstop flight record," Major Coli said.

To Be Tried As Spy

London.—Sitting at Old Bailey, the grand jury returned a true bill against Lieut. Commander Colin Mayers, retired British naval officer, who was arrested in March for alleged illegal possession of submarine plans. Commander Mayers will be tried on a charge of obtaining "certain plans, sketches, documents and information calculated to be useful to an enemy."

OFFER HINTS FOR CELEBRATION OF CANADA JUBILEE

Ottawa.—Ten thousand copies of a pamphlet containing general suggestions for the guidance of committees in charge of local celebrations have been sent to every organized municipality in Canada, to all members of Parliament and members of provincial legislatures, by the national committee for Jubilee celebration.

It is suggested that the mayor or reeve should call a public meeting to select a Jubilee committee. This committee would have charge of the program for July 1, 2 and 3, and would appoint sub-committees on various phases of the celebration. The pamphlet contains suggestions as to decorations, ceremonies and time for the events, with proposals regarding parades, school children, tableaux, veterans and militia, newcomers, old settlers, Indians, decorations of monuments etc.

The national committee encourages the main celebration for Friday July 1 with a sports program for Saturday and Thanksgiving service on Sunday.

Predicts Population Of Eight Billion

Total Number on Earth in 300 Years Says German Professor

New York.—Within 300 years the human race will reach a total population of 8,000,000,000 persons, the estimated capacity that can live on the earth's surface, says Professor Albrecht Penck, of the University of Berlin. He arrived on the Hamburg-American liner Cleveland to attend the bi-centennial of the American Philosophical Society at Philadelphia. Asked what may occur when the earth's surface becomes congested with people, he said: "It passes the faculties of my imagination."

"Dud" Shell Kills Workman

Men Were Removing Debris From Famous Langemarck Field

Paris.—The casualty list of the World War was augmented by three deaths when a terrific explosion occurred on the scene of the famous battle ground, Langemarck, well known to Canadian soldiers. Two workmen engaged in the still unfinished task of clearing debris from the battlefields, while moving a giant unexploded shell found buried in the earth, somehow jarred the brass cap on its nose and were blown to bits in the blast that followed. Another workman standing thirty yards distant was struck by a shell fragment and died in hospital.

Plan Longest Non-Stop Rail Run

London.—Plans have now been completed for the new longest non-stop rail run in the world from London to Carnforth, in Lancashire, on the Euston-St. Pancras route. The run will be 256 miles—ten miles longer than the present longest non-stop run—on the G.W.R. from London to Plymouth.

Preparing for Long Trip

Two Parties of Mounted Police Leaving Soon for Far North

Regina. — Specially selected for physical qualifications and trained to the minute, two parties of Royal Canadian Mounted Policemen are making final arrangements at headquarters here for an early departure to the far North where they will be stationed for at least two years.

One party will sail from Vancouver in May, for service in the Yukon while the second will make a tremendous overland journey north of Edmonton, some of them designed to do patrol work at Herschel Island, the extreme Northwest of Canadian territory. The final disposition of the men will be made by those in charge of the northern posts.

Corporal T. Reddyhoff and Constables A. W. King and W. H. Maffett will go to the Yukon.

Ready to leave on the Arctic trip are Constables M. A. Couchman, W. S. Carter, R. J. Bell, T. G. Dinelle and C. Ethier.

C.N. Earnings Show Increase

Summary for March Shows Substantial Advance Over March, 1926

Montreal.—Increases of $1,138,292, or 5.13 per cent. in gross earnings, and $73,680, or 1.66 per cent. in net earnings are shown by the operating summary for the Canadian National Railways during the month of March, 1927, as compared with March of last year. Working expenses during the period increased by $1,056,611, or 5.97 per cent., and the operating ratio for the month was 81.05 per cent., as against 80.4 per cent. in March, 1926.

For the first three months of the present calendar year, gross earnings of the Canadian National system are shown to be $62,512,461, an increase of $3,465,355, or 5.87 per cent. over the earnings for the corresponding period of 1926.

Cannot Use Word "Doctor"

Decision of Ontario Judge Regarding Chiropractors and Osteopaths

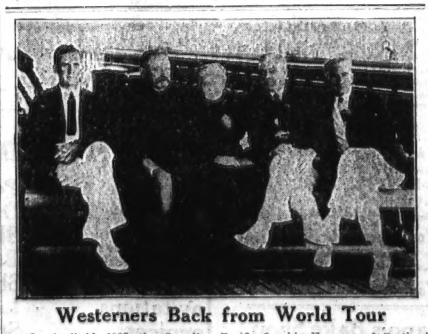
Toronto. — Osteopaths and chiropractors are debarred from using the word "doctor" as an occupational designation relating to the treatment of human ailments, in a decision handed down by Mr. Justice Middleton on a stated case submitted by J. Edmund Jones. His Lordship states the use of the word by those who are not registered surgeons or physicians under the Ontario Medical Act is held to be illegal.

Will Not Repeat Invitation

Geneva.—The League of Nations definitely decided, despite the recent settlement of a long standing controversy between Switzerland and Russia, not to issue a second invitation to Moscow to participate in the forthcoming economic conference. The first invitation was declined because the conference was to be held on Swiss soil.

Constructing Fast Submarine

Rome.—An attempt to cross from Europe to the United States in fifty hours by means of an especially constructed submersible boat is to be made late this year by Ettore Bugatti, owner of an automobile factory in Alsace, France.



Westerners Back from World Tour

On April 12, 1927, the Canadian Pacific flagship Empress of Scotland docked at New York after a successful four-months voyage around the world to twenty countries. This group of passengers are all from British Columbia and are, left to right, George A. Tarbell, Courtenay; Major and Mrs. Thomas H. Worsnop, Kamloops; Daniel Kilpatrick, Courtenay; and Charles E. Blaney, Vancouver.

FIX RAIL RATES THAT WILL HELP CANADIAN TRADE

Ottawa. — The order-in-council under which the Board of Railway Commissioners are conducting an inquiry into freight rates required the commission to fix just and reasonable rates that would encourage and develop Canadian trade.

However, A. Fraser, K.C., counsel for the Canadian National Railways, insisted this did not for a moment suggest that the present rates were unjust or unreasonable when they received the approval of the board.

Conditions were constantly changing, Mr. Fraser said, and what was fair and just at some period in the past might need adjusting now. This was what the board was now called upon to consider.

Some discussion arose between Deputy Chief Commissioner Vien and counsel as to exactly what were the limitations of the powers of the Governor-General in council to issue instructions to the board as to the lines upon which they should proceed in the adjustment of rates. It was agreed that the commissioners were the sole judges of what would be fair and just rates, subject to appeal to the Governor-General in council and His Excellency's powers of review were wide, almost to the degree of being arbitrary.

It was further agreed that an order-in-council might be set forth giving certain principles for the guidance of the Railway Board, but if those principles could be shown to be in conflict with the provisions of the Railway Act the order-in-council would have to go.

Intends to Attempt Trans-Atlantic Flight

French War Ace Plans to Make Trip in September

New York.—Captain Rene Fonck, French war ace, has arrived from France. He expressed sorrow over the death of Lieut-Commander Noel Davis and Lieut. Stanton H. Wooster in Virginia, and announced that regardless of how many fliers might precede him across the Atlantic, he would attempt to fly from New York to Paris in September.

Captain Fonck said the plane he will use will be completed at College Point, L.I., in July and will be a duplicate of the biplane which was burned up with a loss of two lives when taking off last September.

Despite tragedies the backers of the Bellanca plane, which recently established a new world's endurance record, have announced they are practically ready to hop off for Paris.

This plane, in which Clarence D. Chamberlain and Bert Acosta stayed in the air almost 52 hours, is the most serious contender in the race.

The accident to the Davis machine has not slowed up preparations for its flight.

Served in Canadian Forces

Funeral of U.S. Citizen Attended by Canadian "Mountie" in Full Regimentals

Washington, D.C.—For the first time in history a Canadian Mounted policeman in full regimentals attended the funeral of a United States citizen on United States soil.

Sergt.-Maj. Richard Urquff, a native of Baltimore, who served in the Canadian forces throughout the war, was buried here and Corporal Hugh Lamont, attached to the Canadian legation, attended the funeral.

Mr. Massey, the Canadian minister, was represented by his private secretary, A. T. Stone. The coffin was draped with the United States and Canadian flags. Stone laid a wreath on the coffin.

Will Take Trip Across Canada

Montreal.—Miss Hortense Cartier, 78-year-old surviving daughter of Sir George Etienne Cartier, one of the Fathers of Confederation, has accepted an invitation from E. W. Beatty to take a trip across Canada next July in connection with the diamond jubilee celebration. Miss Cartier resides at Cannes, France.

Holborn Picnic & Dance, Tues. May 24

CANADIAN NATIONAL EUROPEAN TOURS.

A maximum of travel thru particularly interesting countries at a minimum of expense is provided in the Canadian National Educational tours this summer thru Scotland, England, France, Belgium, Switzerland and Italy.

Two tours have been arranged and sailing will be made from Montreal, July 8, on the SS. "Andania," direct to Glasgow. Very careful attention has been given to the itineraries involved.

Tour No. 1 is a 37 day trip on sea and land, visiting important cities in Scotland, England, Belgium, France, Switzerland. All expenses, $372.50, Montreal to Great Britain and the Continent and return to Montreal.

There will be low excursion fares to the seaboard from points in the Prairie Provinces.

These tours will be personally conducted from Western Canada, and while overseas will be under the direct care and supervision of thoroly responsible and reliable organisation, fully qualified in every particular to successfully look after the interests of our patrons.

The sight seeing program is very complete and generous. Motor coaches and automobiles are freely used. All sight seeing is well planned to save unnecessary fatigue and to see the worth while places within the time at our disposal. Competent lecturers will reveal to our patrons the outstanding features, literary, historic, artistic or scenic of the Old World centres visited. J W McCulla, phone 23, local agent for the Canadian National Railways, will be glad to discuss these tours and arrange all details.

Here and There

Reports received by the Provincial Department of Agriculture indicate that the crop acreage this year will be much larger than last year. Some of the estimates show as much as 500,000 acres in advance of 1926.

Roger Babson, noted statistician, in addressing the Canadian Club of Toronto, said that in 25 years time Vancouver would be the greatest port on the American Pacific coast and that it was only a matter of time before the trade across the Pacific Ocean would equal, if not exceed, that of the Atlantic.

It is announced by the Hon. W. R. Motherwell, Minister of Agriculture, that a contract had been entered into with the Nova Scotia Public Fish Cold Storage Terminals, Limited, at Halifax, respecting the construction and equipment of a modern cold storage plant at Halifax, to be completed about November 1st, 1928.

It has been officially announced that the Canadian Pacific Railway will operate the Hereford Railway which extends in Quebec from Lime Ridge to the United States boundary, passing through several Eastern Townships, including Cookshire, Sawyerville, Malvina and down to Paquette. This line has not been operated since November, 1925.

Heirs to the thrones of Great Britain and Spain will vie with each other at the World's Poultry Congress to be held at Ottawa July 27 to August 4. H.R.H. the Prince of Wales will exhibit some live birds from his farm in Cornwall, England. Now word is received that H.R.H. the Prince of Asturias, heir to the Spanish throne, will exhibit some fowl from his own poultry farm.

Over 1,000 members of the parish of St. Aidan's Church, New Jersey, journeyed to Montreal over the Canadian Pacific lines on Easter Monday to visit the famous Oratory of St. Joseph. The visit was in the nature of an act of thanksgiving for the miraculous cure last year of their pastor, Rev. Father Roger McGinley. Father McGinley had been suffering from heart trouble for some years preventing his entering the pulpit. Following a visit to Brother Andre, however, in Montreal, his condition improved almost instantaneously. Within a few days he was able to address his flock.

Passengers on the Canadian Pacific flagship "Empress of Scotland," now completing a world cruise, visited the ruins of the site of the old city of Panama destroyed in 1671 by Sir Henry Morgan, the famous English pirate. The ruins have come into the limelight recently on account of the fact that treasures valued at over $50,000 have been discovered by a young English fortune hunter, Lieutenant George Williams. The discovery, which was made by means of a delicate violet ray detecting instrument of his own invention, consisted of gold Church ornaments, gold dust and jewels. The delicate instrument still indicates that larger treasures exist at this site.

Completing a journey of over 30,000 miles during which the entire globe was circled, the Canadian Pacific flagship "Empress of Scotland" docked at New York recently. Over 400 passengers disembarked laden with every imaginable kind of souvenir from every country. The ship carried back the first refugees to America from the war zones of China in the persons of Mrs. Melvin Southwick and her young baby, who were forced, through Chinese disorders, to board—a tramp steamer for Kobe, where they were picked up by the "Empress of Scotland." Mrs Southwick's husband is an official of the Standard Oil Company at Hankow. During the great cruise of the "Empress of Scotland" she visited about 20 countries and anchored in over 25 world ports.

CHAPTER XXXIV —Continued

Again Brandon smiled weakly, and indicated the bandages. "She is to blame for that. But I do not think she will give an alarm. That will await the men you left in the barn. The police will not be concerned much, when you have returned to them the plunder you collected. When you have sent them that, you will be as I said—paid double."

The expression on the face of the club house official who had heard the cryptic conversation began to show a gleam of understanding—a curious understanding of the hold-up which had sent the group of half hysterical women back to his hospitalities. Antoine noted and shifted uneasily. Brandon too, alert despite his pain, saw. He called the man to the couch:

"Do not be concerned by the little drama in the mist tonight," he said, between his laborious breathings. "Your patrons who were robbed will receive their valuables. I have reason to believe. They will be none the worse for their experience. They may not know of it, of course, but they played their parts tonight in a great adventure."

Meanwhile, Joanna, her wrap unfastened again, her slim hands gripped to the wheel of the gray car, fought her way along the narrow road. When she rounded a turn just above the village of La Turbie little pin points of light shone up. Far down out over the sea, the lighthouse at the base of Cap Martin glowed like a far away eye of the night. The mist was lifting before the threat of dawn. Beyond La Turbie the country, although chaotic, was visible. The lamps along the sea boulevard were discernible.

The thought of Kenilworth, still captive with the other men in the hidden barn of the bandits, bothered her for a moment. An impulse came to turn around and, with the road partially clear, now, feel her way back to the hut she was certain she would recognize. She could, she considered, pick up someone at La Turbie to help her awaken the countryside. She decided against this plan however, settled back behind her wheel, and shot into high speed.

The grounds of Villa Amette were vapored by the rising dampness of the dissipating mist. A solitary light, near the entrance gate, gleamed dimly. As she guided the car along the winding road to the house among the vague, gray shapes of the arbors and pergolas and pavilions which, in another few hours, were to be a blazing, fantastic background for her brilliant and lavish fete—the fete of the Golden Girl, and, also, her Swan Song! For Brandon had said "I am the one!" and he had said, too, "Whatever you have is to be taken from you. There shall be no more money!"

When she drew up in front of a side entrance to the villa she saw that the house itself was also dark. She considered whether or not to summon a servant with her horn, and decided to leave the car in the roadway and go in quietly. She ached for the aloneness of her room —the room which thronged the great golden bed.

At the ponderous villa doors she was troubled by the thought that she had never found it necessary to carry any sort of key. Servants always awaited her return, but they had to be summoned by the bell. She tried the door, however, and found that it was unfastened. She closed it softly behind her and felt her way across a tiny reception room to a draped arch that opened into a seldom-used drawing room. Across this room would be the grand hall from which a stairway led to the upper floors. When she was almost up to the heavy, double drapes which hung in the arched door that opened into the bigger room she stopped, suddenly. Between the curtains a line of light shone. She heard murmur of voices. Convinced that it would be servants, awaiting her perhaps, she pushed the curtains aside and stepped into the room. Then she stood, fascinated.

The voices swelled as the curtains parted. One of them she recognized as Yvonne's; the other, John's. And at the far end of the room she saw them, before the gentle glow in the fireplace, the only illumination in the room. Yvonne, gorgeous and Circe-like, her sinuous body wrapped in the sense destroying hues of rich red Burgundy, her only ornaments dazzling diamonds that glistened like a myriad of consuming fires in the gentle firelight glow, leaned forward in a cushioned, gilded chair. And at her feet—at satin slippers never worn by Joanna's feet," as Brandon had taunted her — was John!

For one brief instant the thing before her muddled, and assumed a contorted shape. Then the smoulder in the fireplace burst into a flame of hell, and died again into something that flared as a grotesque mockery. Joanna's wrap fell from her shoulders. Her little hands dug into her breasts, but gave the senseless body no pain. The little figure in black stood, then, utterly lost to every thought but of what she saw —and heard.

"I have never known love until now! All else has just been a chimera. It is you who have shown what love's glory is! Please my wonderful dear, will you take me in—and comfort me."

John's voice, that was, John! Passion and pleading and humility, in it. All those nuances of adoration, submission, hope and prayer and yearning that Joanna had never heard in it.

Now, Yvonne's low, silvery cadences, infinitely sweet, and—infinitely soothing:

"Are you content—will you be content—to accept from me the love that is the only kind that I may give you? The love that has blossomed and withered so many, many times? Mine can never be a pure love, my friend. And I may never promise constancy. It is the crown that you may wear only while you can defend, and keep it. That is what is said of me, and my love, my dear, and I must not say to you that what is said is untrue. If we have you and I, and if I give to you the portion I may spare you, you must be content. It can never be a holy love —there must always be something wanton in it. It must be the kind we take and put aside. Will that then, satisfy you."

He crept closer to her. She put her hands about his face, warm, mesmeric hands. Her rich, soft, round lips—lips that were a sign of all love-madness since the world began—went down to his. Then it was John's voice again:

"There can be no other love as wonderful as you can give. In any way that I may have it, if it be pure or defiled, I want it!"

A scream, a torrent of them, a frenzy of them, surged to Joanna's lips—and halted there. It was Yvonne who rose, slowly, sinuously gracefully, Joanna saw, as if it were some strange, fantastic symbol taking form at the rim of a distant horizon, a smile, a faintly lined, queer, and fitting smile, at Yvonne's red lips. And John saw, and got to his feet, sense-dazed and marvelling. Again that low, soft, silvery cadence of Yvonne:

"What a poor, damnable thing you are, my friend! Go preach, my dear Preach to Joanna; preach to the heart and the soul and the wonder of her! Preach—but do it on your knees and take your text from the lesson I've taken the trouble to give you. Tell her that you've learned, at last, that you're only make-believe—you and all your kind. Tell her that if she'll have you, you'll try to learn from her the sort of thing her kind can teach."

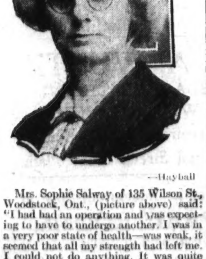
John's voice, then, but Joanna didn't hear. She stumbled blindly back through the curtains.

(To Be Continued.)

Alberta Sugar Beet Industry

The Canadian Sugar Factory Co., Ltd., of Raymond, Alberta, intends growing beets on half an acre of land in the vicinity of Red Deer this summer for test purposes. If successful, a new plant is likely to be set up in that vicinity.

If You Need a Tonic, Get The Best!



—Hoyt Ball

Mrs. Sophie Salway of 135 Wilson St., Woodstock, Ont., (picture above) said: "I had had an operation and was expecting to have to undergo another. I was in a very poor state of health—was weak, it seemed that all my strength had left me. I could not do anything. It was quite necessary that I have a good tonic to make me strong enough for my second operation so I took Dr. Pierce's Golden Medical Discovery and it soon had me well and strong, and I came thru the operation without any trouble. Several other members of my family have taken the 'Golden Medical Discovery' with equally good results and all have words of praise for it."

Ask your druggist for Dr. Pierce's Discovery, in tablet or liquid form, or send 10c for trial pkg. of tablets to Dr. Pierce's Laboratory, in Bridgeburg, Ont.

RESTORED TO GOOD HEALTH

Mother of Eleven Children Praises Lydia E. Pinkham's Vegetable Compound

Her Interesting Experience

Buckingham, Quebec.—"I am the mother of eleven living children, and my baby is five months old. I am only 38 years old and I have taken Lydia E. Pinkham's Vegetable Compound for weakness and my nerves. I knew of it from my sister, Dame Edouard Bellefeuille of Ramsayville. For five years I was in misery and was always ready to cry. Now I am so happy to have good health. My daughter, who is 18 years old, has also taken it and will be happy to recommend it to all young girls."—Dame WILLIAM PARENT, Box 414, Buckingham, Quebec.

Why suffer for years with backache, nervousness and other ailments common to women from early life to middle age, when Lydia E. Pinkham's Vegetable Compound will give you relief?

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, over 250,000 replies were received, and 98 out of every 100 reported they were benefited by its use.

Sample Each Free by Mail. Address Canadian Depot: "Rinshesse, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.

Cuticura Shaving Stick 25c.

Little Helps For This Week

Add to godliness brotherly kindness, and to brotherly kindness charity.—2 Peter i. 7.

O brother man, fold to thy heart thy brother,
Where pity dwells the peace of God is there;
To worship rightly is to love each other,—
Each smile a hymn, each kindly word a prayer.

—John Greenleaf Whittier

As the rays come from the sun, and yet are not the sun, even so our love and pity, though they are not God, but merely a poor, weak image and reflection of Him, yet from Him alone they come. If there is mercy in our hearts, it comes from the Fountain of Mercy. If there is the light of love in us, it is a ray from the full sun of love.

—Charles Kingsley.

"The Confederation"

Name Given to New Canadian National Train Commemorates Canada's Diamond Jubilee

An important extension of Canadian National Railways passenger train service between Eastern Canada and the Pacific Coast, is announced by H. H. Melanson, general passenger traffic manager of the System. Under a new chedule which becomes effective on June 24th, from Toronto, and June 27th from Vancouver, trains No. 3 and No. 4, now operating between Winnipeg and Toronto only, under the name of "The National" will operate between Toronto and Vancouver on a 93-hour schedule westbound and 91 hours and 10 minutes schedule eastbound. It was announced also that in honor of Canada's diamond jubilee, the trains under the new service will bear the title of "The Confederation."

These trains operate with the latest type all-steel equipment, including tourist and standard sleepers, dining cars and radio-equipped observation library cars, and have proven very popular with passengers between Toronto and Western Canada points since their inception. On the new schedule, the trains will carry a mountain observation car between Kamloops and Vancouver, and will thus provide passengers with the opportunity of seeing the beauties of the famous Fraser River canyons en route.

An important change in the routing of "The Confederation" across the prairie provinces is also announced. Under the new schedule these trains will operate via Brandon, Manitoba, and Regina, Saskatchewan, thus giving through service to these important cities in the west.

An Oil for All Men.—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Eclectric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it is excellent. Therefore it should have a place in all home medicines and be amongst those taken on a journey.

Orders Frogs From Hawaii

Two thousand pairs of frogs who have been harmonizing under the Hawaiian moon will be given a trip to the Orient if an order from a Japanese frog fancier can be filled. Why the Hawaiias variety of croaker is desired is not stated, but natives claim the edible hind legs are made unusually large and muscular by surf-riding.

Alberta's Dairy Industry

Increase in North Alberta's dairy industry has caused the Edmonton City Dairy to plan additions to its plant this summer, at a cost of $350,000.

Keep Minard's Liniment in the house.

A Use for Everything

Australia Making Millions Out of Jack Rabbit Pest

Australia once upon a time frantically wondered what it would do with the jack rabbit pest. These ferocious creatures ate up all the crops in sight. A government bounty was put on them. Then it was found that rabbit hides were good for material to build felt hats. Last year the pelts of 78,000,000 jacks brought $12,500,000 into Australia. There seems nothing so useless on earth but that it has real value. Some day we expect some genius will discover a use for moth holes.

Bees can't talk, but they often get back at one with a stinging retort.

? — Times One Pound

Multiply one lb. by the number of sheep you have. The answer is the extra wool you get by machine shearing. Have you 15 sheep? Why not begin now to get 15 lbs. more wool every season? Have you 500 sheep? You'll lose 500 lbs. of wool every time you shear with the old, slow and tedious hand blades. Machine shears evenly—gets longer staple wool which brings better price, sheep injured less. Anyone can use machine.

Stewart No. 9 Shearing Machine

Hand power. Sturdy construction—ball bearing. Built to last for years. Includes 2 combs and 4 cutters. At dealers $29.75 or send $2.00 to factory and pay balance on arrival (freight prepaid). Cow and horse clipping attachments $10.75 extra.

Satisfaction or money back.

A BROKEN DOWN SYSTEM.

This is a condition for which doctors give many names, but which few of them really understand. Intimately weakness, abnormal down, as it were, of the vital forces that sustain existence. No matter what may be its cause either are almost identical, its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weakness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what is there absolutely essential in all such cases is increased vitality—vigour, vital strength and energy to throw off these morbid feelings, and as might be expected the day this may be more certainly secured by a course of THE NEW FRENCH REMEDY.

THERAPION No. 3

than by any other known combination. So acutely as it is taken in accordance with the directions accompanying it, will the most obstinate cases yield.

THE EXPIRING LAMP OF LIFE LIGHTED UP AFRESH,

and a new existence imparted to a system that had so lately seemed worn-out, used up and valueless. This wonderful medicament is suitable to all ages constitutions and conditions, in either sex; and it is difficult to imagine a disease or derangement whose main feature is weakness, that will not be speedily and permanently overcome by this concentrative essence, which is destined ere a little oblivion every thing that had preceded it for this wide spread & unintroubles of human ailments. Sold by leading Chemists or either be return mail from THE LECTHO Med. Co. Warwick Rd. S.W. London

NEW WHEAT POOL CONTRACTS.

The Alberta Wheat Pool has not issued any new contracts. A report that these new contracts had been issued is erroneous. Members of the Wheat Pool will receive these in due course, but in the meantime are advised not to pay any attention to rumors regarding this matter. The new contracts will be for a period of five years from the date of the expiration of the present contract. Present members will not be charged any fee for signing the new contracts if signed before August 1928

TUNE IN ON THE

Alberta Wheat Pool Radio Talks

EVERY THURSDAY EVENING FROM CALGARY

At following times, using stations alternate weeks:

Calgary Herald Radio Station, CFAC 9.15 to 9.30 p.m., immediately preceding C.N.R. program.

W. W. Grant Radio Co., CFCN, 8.45 to 9.00 p.m.; following studio program.

EVERY MONDAY EVENING FROM EDMONTON,

Edmonton Journal Radio Station CJCA, from 8.15 to 8.30 p.m., preceding University of Alberta program.

HAVE YOU RENEWED YOUR SUBSCRIPTION ?

Stony Plain and District.

Inga Councillors meet in Stony Plain tomorrow, Friday May 5th.

There will be some noticeable competition, the coming seasou, between the Edmonton creameries, for cream. One of the large concerns there has put on four big motor trucks, and one of these was billed to start this week to cover Stony Plain district. Walbaum was in Stony Saturday, met some of the local truck drivers, and arranged to have these work for his company, the Woodland Dairy Co.

The sports committee at Holborn is arranging a first-class program of events to be run off at their big anniversary picnic on Victoria Day, May 24. Lorne Oatway is taking his team of baseballers down on that day, and expects to win a silver cup.

It is reported a truck service will be in operation the coming season, from Holborn to Edmonton, for the convenience of the raisers of farm produce and stock.

The postoffice at Edmonton Beach is now open.

M M Mecklenburg, the well-known optical specialist, will be at the Royal Hotel, Stony Plain, on Monday, May 30th See him and see well.

A dance will take place at Blueberry schoolhouse tomorrow (Friday) evening, May 6.

A nice social dance was held Friday night last, at Mr George Kulak's, Rosenthal.

A good sized crowd was in attendance Friday night last, at the dance given by the Muir Lake Sporting Club in the schoolhouse. There was good music, with Mrs Kettle presiding at the piano, assisted by local talent.

Messrs Hy Zeiler and Z Gamble left on Monday for Holden.

Get your application for 1927 motor license at The Sun Office.

Wheat Pool News Notes.

Hanna townspeople and Hanna farmers are planning on a United drive to put over an one hunderd per cent sign up of the new wheat pool contracts, according to information received at the pool head office. The Hanna agricultural society and the Kiwanis club are planning on putting their combined strength behind a drive to make the Hanna district solid for the wheat pool. In scores of other centres in Alberta the same feeling is manifest. The majority of the town people are lined up with the farmer in the latter's determination to handle and merchandise their own wheat.

Alberta wheat pool Directors have decided that the 6% interest accumulating on elevator Reserve accounts, should be paid out to the members in all cases where it amounts to $1.00 or over.

Payment of this interest from August 31, 1925, to Aug. 31, 1926, on deductions made from the 1924 crop, will therefore, be made about the end of May, and mean a total distribution of approximately $20,000.

Amounts under $1.00 will simply be added to the members' accounts and carried forward to the following year.

John H. Foerster Passes Away

It is with genuine regret we chronicle the death, this week, of our worthy Postmaster, Mr John H Foerster, who died in Edmonton on Sunday morning. Deceased had been ailing for about two weeks, and it was considered advisable to take him to Edmonton, to where he was removed Saturday morning.

Deceased had resided in this district some 20 years, coming up from Elmira, Ont. He had served for a number of years on Stony Plain Town Council, and had been Mayor for a term. He also took quite an interest in educational affairs, and was for a number of years on the School Board, at one time being chairman.

Deceased had a host of friends, being of a genial disposition; was noted for his many kindly acts, and will be greatly missed by patrons of the local postoffice.

He is survived by his wife and four children: Miss Amy, who has been attending Normal school, at Camrose; Miss Irene; and Masters Walter and Arthur.

The funeral will take place tomorrow, Friday.

Canadian National Sixth Annual Tour To the Pacific Coast

In pursuance of a time-honored practice of affording its patrons every facility and convenience tending toward more vacation enjoyment, the Canadian National in operating its sixth annual tour firmly believe that this will again prove of the greatest aid and convenience to a host of teachers, as well as to professional men and business men and women, vacationbent.

The tour will commence at Winnipeg, from which point a special train of modern sleeping car equipment, dining car and radio observation car, will leave July 4th. The party will be personally conducted by an efficient and experienced representative of the Canadian National.

After stopping at various points of interest, the train will arrive at Prince Rupert on July 9th. At this latter point the party will embark on a palatial steamship for a cruise of 550 miles thru the famous "Inside Passage" to Vancouver. While the tour terminates at Vancouver, those who desire to make a trip to Victoria may have their tickets read "Victoria" as their destination without any additional cost.

This mode of travel has many advantages. In the first place it is planned with a view to including in the itinerary the most interesting points, which, with the other arrangements that are made, obviates the necessity of the passenger worrying about connections, sleeping car accommodation, meals and entertainment en route. This is all done in advance by experts, leaving the passenger free to enjoy to the full the scenery and attractions attendant to such tours.

The local agent of the Canadian National Railways will be pleased to give you full particulars of this tour.

Noted for 'Claire de la Lume'

At one time Hay Lake was noted far and wide. It was famous for—well, let us speak plainly — for its excellent brands of moonshine. We are law respecting enuf to hope that those days are in the discard, but we would like to see Hay Lake build up its renown once more. We do not feel it at all impossible to make it the finest townsite between here and Calgary.—Hay Lake Times.

Railway Time Table.

Going east—Monday, Wednesday, Friday at 6.55 a. m. Sunday, Tues., Thurs., Sat. at 5.43 a. m.
Going West—Sunday, Tuesday & Friday afternoons at 1.30. Every midnight at 24.17.

Spruce Grove News

Mrs Margon, a former resident of this district, is in an Edmonton hospital, in a serious condition.

Some good work was done last week on the main road east of town.

Mrs Joe Guenette is visiting friends in Edmonton this week.

Mr Reg. Pinchbeck returns home this week, after completing his studies at the University of Alberta.

Trying 'Em All.

Dick—"That's a pretty bad cold you have, old man. What are you doing for it?"

Bill—"Today I'm doing what Jones told me to do. It's Simpson's day tomorrow, and the next is Brown's. If I'm not better by Sunday and I'm still alive, I'll try yours.
